Fact sheet

2

Always remember:

If you live in an area prone to flood or storm surge, planning for an evacuation now can save you time and stress in the event of such an emergency.

On this page are three steps to help prepare evacuation arrangements for your emergency plan, as well as a checklist before you evacuate.

On the other side of this page is a suggested list of items to have prepared in your evacuation kit.

This brochure is for information only and is provided in good faith. The Queensland Government is under no liability to any person in respect of any loss or damage (including consequential loss or damage) which may be suffered or incurred, or which may arise directly or indirectly, in respect of reliance by any person on the information contained in this brochure.

Prepare for evacuation

1. Research hazards and disaster management arrangements in your community.

- What potential hazards could impact your community? Is there any information on Disaster Management Plans for these hazards?
 - Check with your local library and local council for information and plans.
 - Check with your local council about local warning systems, evacuation process and nominated evacuation routes.
 - Find out if you live in a flood-prone area or evacuation zone. Do you need to make arrangements to stay with friends on higher ground?
- Ask about emergency and evacuation plans at your workplace, school, and childcare providers. Check if they need details of your household emergency contacts.
- What local support is available?
 - Ask for contact details of local agencies and record these on your Emergency plan.
 - If your household will need support to evacuate, find out what assistance is available.
- Become familiar with weather warnings issued by the Bureau of Meteorology (www.bom.gov.au and phone services).

2. Discuss possible scenarios and responses with your household.

- Discuss each hazard and potential scenarios.
 - What would you do in the event of each emergency?
 - Where might you be when such an emergency occurs?
3. Depending on the type of emergency, decide how you would keep in touch and where you would meet.
 4. Does everyone know the **Standard Emergency Warning Signal (SEWS)** and what to do when this warning is issued? *To learn more about SEWS visit www.disaster.qld.gov.au*
 5. Does everyone know to tune into the local ABC radio station to hear updates and warnings?
 6. You may also need to prepare for evacuation. Discuss where to go if you were unable to return home or if you have to leave your home.
 7. **Nominate two meeting places** in case of an emergency, **one nearby, another outside your neighbourhood**, everyone can easily get to.
 8. **Nominate two family members** or friends who do not live with you (**one local, one interstate**) to be household emergency contacts in case you and your family become separated. Ensure everyone knows how to contact these people.
 9. Discuss medical conditions of household members. Include essential medications and dosages in your emergency kit.
 10. Discuss what preparations are needed for your pets (*also see Fact Sheet 7*)

Checklist for evacuation

- Has official advice been given to evacuate?
- Do you know where you will be evacuating to?
- Is your evacuation point further inland, on higher ground and secure?
- Do you know the preferred route for evacuation?
- Is your vehicle full of fuel?

Have you packed your:

- 1. Evacuation kit?**
(See other side of this page.)
- 2. Emergency kit?**
(Also see Fact sheet 3.)
- 3. Emergency plan?**
(Also see Fact sheet 1.)
- Do you have essential medications for your family?
- Have you packed important documents and valuables?
- Have you turned off all the power, gas and water mains to your home?
- Are your pets safe and secure?
- Have you secured and locked your home?
- Have you packed emergency water supplies?
- Have you checked on neighbours who are elderly or disabled?

If you have completed the items above, then commence your evacuation plan.

If you are visiting or holidaying in Queensland, or interstate, and do not have family or friends to shelter with, contact your accommodation manager to identify options for evacuation.

qld.gov.au/getready

Your evacuation kit should be kept in a sturdy, easy to carry bag or waterproof storage box and stored in a safe place that is easy to access.

Evacuation kit

Items to include:

- Multiple changes of clothes for all household members, stored in watertight plastic bags (long pants, long sleeved shirts, hats and strong shoes are recommended)
