Attention:

Dear Sir / Madam

TELECOMMUNICATIONS NETWORK INFRASTRUCTURE PROVISIONING

This notice is issued for the following lots in the below listed development only (“Lots”):

LOT/UNIT NUMBERS REQUESTED FOR NETWORK	EXISTING LOT & PLAN NUMBER
<p style="text-align: center;">2 lots</p> <p>Lots Being Cancelled:</p> <p>Lots Being Created:</p>	

NAME OF DEVELOPMENT & LOCATION

Telstra Corporation Limited confirms that telecommunications network infrastructure has been provisioned to the above development. Additional works may still be required in order for telecommunications services to be provided in the development.

These works will, if the telecommunications network infrastructure continues to be owned by Telstra, be carried out at Telstra’s sole discretion and Telstra reserves the right to require a contribution from the developer for the cost of those additional works.

This letter is not a confirmation that telecommunications services can or will be provided at the development over the provisioned infrastructure or that the infrastructure meets necessary legal requirements or industry guidelines imposed under the *Telecommunications Legislation Amendment (Fibre Deployment) Act 2011*. As the NBN will roll out in different timeframes for different developments, it may be appropriate for Telstra to provide a customer’s services (in the interim) over technology other than fixed line. Telstra will continue to meet its universal service obligation in ensuring that eligible customers have access to a standard telephone service.

Telstra Corporation Limited is not responsible to a recipient of this confirmation or anyone else for any loss suffered in connection with this confirmation or any of the content and excludes, to the maximum extent permitted by law, any liability which may arise as a result of the issue of this confirmation or its content.

If you have any enquiries or require any further information please contact me at the above address.

Yours sincerely,
John McEvoy-Bowe
